PROFILE

Results-driven Technical Consultant with expertise in MS Dynamics 365 and Power Platform. Led successful implementations of IT staffing solutions and automated lead management processes, resulting in streamlined recruitment, increased conversion rates, and enhanced collaboration. Proven experience in UX design, website development, and UX/UI projects, delivering seamless experiences and responsive solutions. Passionate about leveraging Dynamics 365 and Power Platform to drive innovation and deliver exceptional user experiences. I have consistently achieved efficient and effective business process automation, empowering organizations to optimize their operations and achieve their strategic goals.

EDUCATION

from 2018 - 2022

SIR SYED UNIVERSITY OF ENGINEERING & TECHNOLOGY

Bachelors in Computer Science

from 2015 - 2017

GOVT. COMPREHENSIVE HIGH SCHOOL FOR BOYS

Higher Secondary School Certificate (HSC)

from 2005 - 2015

H.B. MALIK PUBLIC SCHOOL

Secondary School Certificate (SSC)

EXPERIENCE

from February 2020 - Present

CREATIVE TECH LEAD | **DIJINATION**

DYNAMICS 365 AND POWER PLATFORM:

- Led Dynamics 365 and Power Platform implementations for IT staffing and marketing/sales automation projects.
- Customized entities, workflows, and forms to streamline recruitment processes and improve lead capture and tracking.
- Developed user-friendly Power Apps for candidate tracking, communication with hiring managers, and simplified lead collection.
- Automated email notifications, interview scheduling, and follow-ups using Power Automate, increasing efficiency and conversion rates.
- Managed client relationships, provided training and support, and delivered projects within timelines.

UI/UX DEVELOPMENT:

- Developed responsive and dynamic user interfaces using HTML, CSS, and JavaScript for optimal performance and user experience.
- Implemented best practices to improve website performance and user experience.
- Created a website using React JS, receiving positive client feedback.
- Designed and developed websites using Bootstrap, Tailwind, and WordPress.

PROJECT MANAGEMENT AND TEAM LEADERSHIP:

- Managed projects following agile principles in DevOps, collaborating with cross-functional teams to meet project timelines, budgets, and high-quality standards.
- Demonstrated strong client management skills, ensuring client satisfaction throughout the project lifecycle.
- Proficient in understanding requirements, conducting analysis, and delivering MS Dynamics 365 and Power Platform solutions. Led and coordinated an onsite team of designers, developers, and social media managers for successful project outcomes. Skilled in providing training and support for seamless adoption of solutions.

USABILITY AND USER TESTING:

- Built accessible and lightweight web pages informed by user research.
- Designed user interfaces and experiences for mobile applications and websites.
- Conducted usability testing and iterated on designs for improved user satisfaction and conversion rates.

PROJECTS

CLUTEC INC *(Feb 2023 - Ongoing)*

- Implemented Dynamics 365 and Power Platform to automate lead collection, qualification, and opportunity management, resulting in streamlined lead processes, increased lead conversion rates, and enhanced collaboration between marketing and sales teams for Clutec Inc.

COPPELTECH *(September 2022 - January 2023)*

- Led the implementation of an IT staffing solution using Dynamics 365 and Power Platform, streamlining the recruitment process, improving collaboration between HR and hiring managers, and enhancing recruitment efficiency for Coppel Tech.

ONEDAY SERVICES *(September 2022 - December 2022)*

- Led client engagement, analyzing staff management requirements and market dynamics. Offered solutions using Dynamics 365 and Power Platform, ensuring client satisfaction.

SENDEAZE *(January 2022 - July 2022)*

- Utilized Dynamics 365 Sales module to streamline order management, track customer interactions, and manage sales processes.

OM EQUITIES *(September 2021)*

- Led the website development for OM Equities, utilizing Tailwind, HTML, and React JS to create a visually appealing and responsive website.

XCITIZEN *(July 2020 - August 2020)*

- Contributed to the research, UX design, and UI design of XCitizen, an app aimed at combating racism and police violence.

DEAL NOW *(April 2020 - June 2020)*

- Led the UX and UI design of Deal Now, a two-sided communication and marketplace platform for regional consumers to search and order clearance items, discounted food, and avail sales and promotions.
